

Eurohelp Ltd.  
Eurohelp International Consultants Ltd.

Our competence is to work locally and internationally in various areas such as legal services, private and public digital and electronic services (electronic databases, systems, information exchange, e-solutions, etc.), business and economic services, project development and management.

We work in close cooperation with such organizations competent in their field as the Estonian e-Government Academy (short and long-term consultations on e-solutions and e-services and on the construction of e-systems); SK ID Solutions (specializes in international e-identity solutions); PROLOG (develop the professionals in the purchasing and supply chain management, introduces paperless-digital solutions for logistics and transportation local and international corridors); a wide range of IT companies

We want to develop full cooperation with institutions and companies in the Western Balkans to work together to create modern and efficient e-solutions and e-systems. We are ready to consult you in the field of your interest.

Mr. Tom Annikve
