

## **secunet – Protecting Digital Infrastructures**

In an increasingly networked world, Germany's leading cyber security company, secunet offers a combination of products and consulting services, robust digital infrastructures and the highest level of security for data, applications and digital identities. secunet specializes in areas with unique security requirements, like the cloud, IIoT, machine learning and eHealth. With secunet's security solutions, companies can comply with the highest security standards in digitization projects and advance their digital transformation.

More than 700 experts strengthen the digital sovereignty of governments, businesses and society. secunet's customers include German federal ministries, national and international organizations and more than 20 DAX-listed corporations. The company was established in 1997, is listed on the SDAX and generated revenues of around 226 million euros in 2019.

secunet is IT security partner of the Federal Republic of Germany and a partner of the Alliance for Cyber Security.
